

Slash-Style Commands & Prompt Patterns

A practical reusable command library for ChatGPT-style prompting. These are user-defined prompt conventions, not secret system commands.

1. Universal Slash-Style Commands

Command	Purpose
/help	Ask for a structured guide
/analyze	Analyze deeply
/explain	Explain clearly
/summarize	Summarize content
/simplify	Make easier to understand
/expand	Add detail
/compare	Compare alternatives
/evaluate	Evaluate quality
/critique	Find weaknesses
/improve	Improve an existing result
/rewrite	Rewrite text
/translate	Translate
/extract	Extract information
/classify	Categorize information
/generate	Generate content
/brainstorm	Generate alternatives
/plan	Create a plan
/steps	Give sequential instructions
/check	Check correctness
/verify	Verify claims
/debug	Find technical problems
/optimize	Improve efficiency
/format	Change presentation
/convert	Convert format
/template	Create reusable template
/examples	Provide examples
/ideas	Generate ideas
/decision	Support a decision
/research	Research a topic
/sources	Request sources
/todo	Create task list

2. Prompt Control Commands

Command	Purpose
/role	Expert perspective
/goal	Desired objective
/context	Background information
/constraints	Restrictions
/input	Input definition
/output	Output requirements
/format	Output format

Command	Purpose
/style	Visual/writing style
/tone	Tone
/audience	Target audience
/language	Language
/length	Desired size
/priority	What matters most
/rules	Behavioral rules
/steps	Process structure
/example	Reference example
/stop	Stop condition

3. Software Development

Command	Purpose
/architect	Architecture
/code	Generate code
/debug	Debug
/refactor	Refactor
/optimize	Optimize
/review	Code review
/test	Tests
/document	Documentation
/explain-code	Explain code
/security	Security review
/migrate	Migration
/api	API design
/schema	Data schema

4. HTML / CSS / JavaScript / UI

Command	Purpose
/html	Generate HTML
/css	Generate CSS
/js	JavaScript
/ui	UI design
/ux	UX analysis
/responsive	Responsive design
/accessibility	Accessibility
/animation	Animations
/component	Reusable component
/convert-ui	Convert design
/pixel-perfect	High-fidelity recreation
/single-file	One-file implementation

5. Web Design

Command	Purpose
/landing-page	Landing page
/portfolio	Portfolio
/dashboard	Dashboard

Command	Purpose
/admin-ui	Admin interface
/ecommerce	E-commerce UI
/saas	SaaS interface
/mobile-ui	Mobile interface
/hero	Hero section
/navbar	Navigation
/footer	Footer
/cards	Card system
/modal	Modal/dialog
/accordion	Accordion
/tabs	Tabs
/form	Form
/table	Data table
/chart	Chart UI
/dark-mode	Dark theme
/glassmorphism	Glass UI
/neumorphism	Neomorphic UI
/minimal	Minimal UI

6. Python

Command	Purpose
/python	Generate Python
/python-debug	Debug Python
/python-optimize	Optimize Python
/python-test	Generate tests
/python-cli	CLI application
/python-api	API
/python-async	Async programming
/python-oop	Object-oriented design
/python-types	Type hints
/python-security	Security review

7. Data / SQL / Databases

Command	Purpose
/sql	SQL query
/database	Database design
/schema	Schema design
/query	Query optimization
/etl	ETL pipeline
/data-clean	Clean data
/transform	Transform data
/aggregate	Aggregate data
/statistics	Statistical analysis
/visualize	Visualization
/csv	CSV processing
/json	JSON processing
/excel	Spreadsheet operations

8. AI / LLM / Prompt Engineering

Command	Purpose
/prompt	Create a prompt
/meta-prompt	Create a prompt that generates prompts
/system-prompt	Design system instructions
/few-shot	Few-shot prompting
/zero-shot	Zero-shot prompting
/chain	Multi-step workflow
/structured	Structured output
/json-output	JSON response
/classifier	Classification prompt
/extractor	Extraction prompt
/agent	Agent workflow
/tool-use	Tool-use instructions
/critic	Critic prompt
/refine	Iterative refinement
/rubric	Evaluation rubric

9. Writing / Editing

Command	Purpose
/write	Write from scratch
/rewrite	Rewrite
/polish	Polish
/proofread	Correct errors
/shorten	Shorten
/expand	Expand
/professional	Professional tone
/friendly	Friendly tone
/formal	Formal tone
/casual	Casual tone
/persuasive	Persuasive writing
/academic	Academic writing
/simplify	Simplify
/headline	Headlines
/caption	Captions
/script	Scripts

10. Translation

Command	Purpose
/translate	Translation
/localize	Localization
/bilingual	Two-language output
/literal	Literal translation
/natural	Natural translation
/technical	Technical translation
/formal	Formal register
/casual	Casual register

Command	Purpose
/preserve-format	Preserve formatting

11. Research / Academic

Command	Purpose
/research	Research
/literature-review	Literature review
/compare-sources	Compare sources
/evidence	Evidence analysis
/cite	Citations
/outline	Research outline
/hypothesis	Hypothesis generation
/methodology	Methodology
/limitations	Limitations
/fact-check	Fact checking
/timeline	Historical timeline
/bibliography	Bibliography

12. Mathematics

Command	Purpose
/solve	Solve problem
/derive	Derive formula
/prove	Proof
/calculate	Calculation
/simplify	Simplification
/factor	Factorization
/integrate	Integration
/differentiate	Differentiation
/matrix	Matrix operations
/probability	Probability
/statistics	Statistics
/graph	Graph interpretation

13. Cybersecurity

Command	Purpose
/security-audit	Security audit
/threat-model	Threat modeling
/secure-code	Secure implementation
/vulnerability	Vulnerability analysis
/privacy	Privacy review
/authentication	Authentication design
/authorization	Authorization
/encryption	Encryption concepts
/hardening	System hardening
/incident	Incident-response planning

14. Linux / Raspberry Pi / Embedded

Command	Purpose
/linux	Linux administration
/bash	Shell scripting
/systemd	Services
/gpio	GPIO
/embedded	Embedded systems
/raspberrypi	Raspberry Pi
/kernel	Kernel concepts
/network	Networking
/serial	Serial communication
/i2c	I²C
/spi	SPI
/hardware	Hardware/software integration
/diagnose	Diagnose problems

15. Git / GitHub / DevOps

Command	Purpose
/git	Git help
/commit	Commit message
/branch	Branch strategy
/merge	Merge assistance
/pr	Pull request
/review	Code review
/ci	CI pipeline
/cd	Deployment
/docker	Docker
/deploy	Deployment plan
/rollback	Rollback plan
/release	Release process

16. Cloud / Vercel / Web Deployment

Command	Purpose
/deploy	Deployment
/vercel	Vercel workflow
/nextjs	Next.js
/serverless	Serverless
/env	Environment variables
/domain	Domains
/logs	Logs
/performance	Performance
/cache	Caching
/edge	Edge architecture

17. Product / Project Management

Command	Purpose
/project-plan	Project plan
/roadmap	Roadmap
/milestones	Milestones

Command	Purpose
/requirements	Requirements
/user-stories	User stories
/acceptance	Acceptance criteria
/risks	Risk register
/prioritize	Prioritization
/estimate	Estimation
/sprint	Sprint planning
/backlog	Backlog
/spec	Product specification

18. Business

Command	Purpose
/business-plan	Business plan
/strategy	Strategy
/market	Market analysis
/competitor	Competitive analysis
/swot	SWOT
/pricing	Pricing analysis
/customer	Customer analysis
/positioning	Positioning
/pitch	Pitch
/kpi	KPIs
/risk	Risk analysis

19. Marketing

Command	Purpose
/marketing	Marketing strategy
/seo	SEO
/keyword	Keyword research
/content	Content strategy
/campaign	Campaign
/email-copy	Marketing email
/social	Social content
/ad-copy	Advertisement copy
/landing-copy	Landing-page copy
/cta	Call-to-action
/brand	Brand messaging

20. Image / Vision / Design Analysis

Command	Purpose
/analyze-image	Analyze image
/describe-image	Describe image
/extract-text	OCR-style extraction
/analyze-layout	Layout analysis
/color-palette	Color analysis
/typography	Typography analysis
/ui-analysis	UI analysis

Command	Purpose
/recreate	Recreate design
/design-system	Extract design system
/prompt-image	Create image-generation prompt
/infographic	Design infographic

21. Documents / PDFs

Command	Purpose
/document	Document analysis
/pdf	PDF processing
/ocr	OCR
/extract	Extract information
/summarize	Summarize
/table	Extract tables
/outline	Document outline
/compare-docs	Compare documents
/rewrite-doc	Rewrite document
/report	Generate report

22. Presentation

Command	Purpose
/presentation	Presentation
/slides	Slides
/slide-outline	Slide structure
/speaker-notes	Speaker notes
/visuals	Visual recommendations
/pitch-deck	Pitch deck
/storyboard	Storyboard
/presentation-review	Review slides

23. Learning / Education

Command	Purpose
/teach	Teach topic
/eli5	Very simple explanation
/lesson	Lesson
/tutorial	Tutorial
/quiz	Quiz
/flashcards	Flashcards
/practice	Practice exercises
/exam	Exam preparation
/mistakes	Analyze mistakes
/study-plan	Study plan
/memory	Memory techniques

24. Decision Making

Command	Purpose
/decision	Decision framework
/pros-cons	Pros/cons

Command	Purpose
/tradeoffs	Trade-offs
/score	Weighted scoring
/rank	Ranking
/matrix	Decision matrix
/risk	Risk analysis
/scenario	Scenario analysis
/recommend	Recommendation

25. Universal Expert Pattern

```

/role
[expert role]

/objective
[exact goal]

/context
[relevant background]

/input
[input data]

/requirements
1. ...
2. ...
3. ...

/constraints
- [constraint 1]
- [constraint 2]

/process
Analyze → plan → execute → verify → improve.

/output
[exact desired format]
```

26. Debugging Pattern

```

/debug

/problem
[observed behavior]

/expected
[expected behavior]

/actual
[actual behavior]

/environment
[OS, browser, language, versions, hardware]

/code
[paste code]

/constraints
[things that must not change]

/task
1. Identify root cause.
2. Explain why it happens.
3. Provide corrected implementation.
4. Explain the changes.
5. Identify edge cases.
6. Provide a verification test.
```

27. Accuracy / Anti-Hallucination Pattern

```

/accuracy

Rules:
- Do not invent facts.
- Distinguish facts, assumptions, and opinions.
- State what information is missing.
```

- If uncertain, say so.
- Do not fabricate sources, URLs, statistics, APIs, or quotations.
- Verify time-sensitive information when necessary.

28. Iterative Improvement Pattern

`/draft`

Create the first version.

`/critique`

Find weaknesses.

`/improve`

Fix the weaknesses.

`/verify`

Check correctness and completeness.

`/final`

Return the polished final version only.

29. Strict Output Pattern

`/output`

Return exactly:

1. SUMMARY
2. ANALYSIS
3. SOLUTION
4. CODE
5. TEST
6. NOTES

Rules:

- Do not add sections.
- Do not omit required sections.
- Use Markdown.
- Put code inside fenced code blocks.

30. Master Command Pattern

`/master`

`/role`

[expert]

`/task`

[what you want]

`/context`

[background]

`/input`

[data]

`/requirements`

[requirements]

`/constraints`

[constraints]

`/quality`

- accurate
- complete
- practical
- consistent
- production-ready

`/process`

Analyze → plan → execute → verify → improve.

`/output`

[exact format]

Quick Cheat Sheet

Goal	Command
Understand	/explain
Analyze	/analyze
Research	/research
Verify	/verify
Fix	/debug
Improve	/improve
Rewrite	/rewrite
Translate	/translate
Generate	/generate
Brainstorm	/brainstorm
Plan	/plan
Compare	/compare
Decide	/decision
Code	/code
Review	/review
Optimize	/optimize
Test	/test
Design	/ui
Recreate image → UI	/recreate
Extract	/extract
Summarize	/summarize
Teach	/teach
Practice	/practice
Format	/format
Convert	/convert
Document	/document
Deploy	/deploy
Secure	/security
Automate	/automate
